Victims

Each of Abdullah AL Nader, aeromechanics, and Mohammed Qasem Nijim from the Yarmouk Camp were killed due to torture in the Syrian regime prisons after being detained for more than two years.

It is mentioned that the number of Palestinian refugees who were killed due to torture in the Syrian regime prisons has reached 267 refugees since the beginning of the events in Syria till yesterday 13-10-2014, according to the documented statistics by the Action Group for Palestinians of Syria.

Abdullah AL Nader

Hungary

A number of Palestinian refugees in Kochkin Halacha Prison in Hungary perform an open hunger strike since three days protesting on the continuation of their detention in inhuman conditions and the injustice done to them after the Hungarian authorities assaulted and severely beat them in order to take their fingerprint forcibly, which means depriving them to Join their relatives who fled to other countries such as Sweden, Norway, Denmark and other European countries.

The refugees threatened to do escalate steps in case the Hungarian authorities did not respond to their demands of their release and not to take their fingerprint and let them go to one of the European countries.

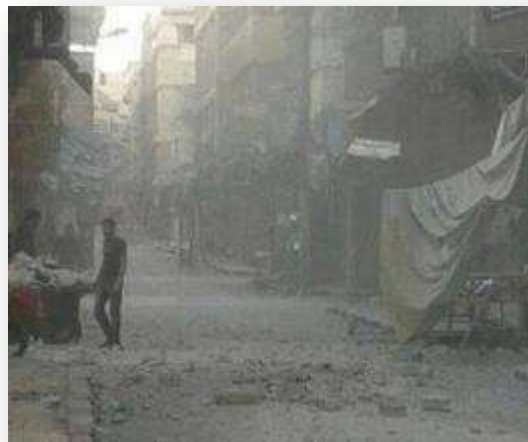

The detainees also launched a call through the Action Group for Palestinians of Syria appealing human rights institutions and civil society to intervene for their release after being arrested by Hungarian authorities on charges of illegal immigration, and subjected to the indignity and humiliation and inhuman treatment.

It should be noted that Palestinians of Syria and Syrians immigrants had fled from the hell of the conflict in Syria, in search of safety and security and a decent life, but they were shocked by the inhumane treatment they received in some countries that have resorted to it.

Recent Updates

A number of artillery shells were dropped in different places on the Yarmouk camp and resulted in only material damages, while the water is still cut from all over the camp for 35 days respectively.

In terms of living aspect, a number of food supplies was available recently in the markets of the camp after buying it from Beit Sahem and Yelda areas in Damascus city which held a truce agreement with Syrian Regime. The residents though, are complaining of the high cost of these goods, as the 1KG of orange or apple is 500 SL, which equals 3.5 \$, while the 1KG of tomato or cucumber is 600SL, meanwhile in Damascus it is only 75 SL.

In another hand, warplanes dropped six explosive barrels on Khan Al Sheih camp and the adjacent areas, where our correspondent said that all these barrels did not explode including three were dropped in AL Khawalda lane, however, it caused a state of severe horror to the residents who are suffering of stifling living crises.

Thus, the residents of AL Raml Camp in Lathakeia are living a state of quietness amid the continuation of their economic suffering, as the people are complaining of the high prices of food supplies in addition to the rent houses. It is mentioned that the camp is receiving dozens of other camps families who are suffering of the bombing and the siege.

As a young Palestinian detainee in Cyprus tried to commit suicide on the 6th of October 2014, in an expression of protest against the poor conditions he suffered demanding at the same time to be granted residence in a European country and to let him out directly from the detention camp.

Lebanon

Within its Purposeful steps to confront the decision of the UNRWA about the cash assistance cut of 1,100 Palestinian Syrian families displaced in Lebanon, the Follow-up Committee for Displaced Palestinians from Syria to Lebanon visited the Democratic Front Office, as part of a series of meetings and contacts with the Palestinian factions and powers to coordinate to face that decision and to press on UNRWA in order to undo it.
