

## ***"Palestinian Refugees from Syria to Lebanon and the Only Option..."***

**Action Group for Palestinians of Syria – Wednesday, 4th June 2014,**

*Lebanese authorities deported 49 Palestinian and Syrian refugees to Syrian territory after a few hours of the decision to ban the entry of Palestinian refugees to Lebanon, because they try to exit from Beirut airport with fake passports, based on statements by the Lebanese General Security.*

*The decision triggered the wrath and anger of refugees, as it followed by clarification from the Lebanese Ministry of Interior to make matters worse that this decision "is not to prevent but to regulate the entry process", and when complaining to the public security and displaying complaint on the refugees, promises came from the highest authority to settle the situation of the Palestinian refugees offenders system for residence and work on the family reunion, which is now divided between Syria and Lebanon by those decisions.*

*But eventually the refugee knew that those words " organization, settlement, prevent, deportation " are all synonyms that the Palestinian Syrian undesirable, or allowed to stay, even if he/she got the required conditions evidenced by the behavior of those who are on the border gates or renewal offices who stated without any shame for some Palestinians that "LEAVE."*

*Palestinian refugees problem started with the targeting of their camps in Syria, and having to get out of the camps in search of safety and security, they have numerous choices at that time, Some who are internally displaced to safer areas they went to Mezza, Kudsia, Sehnaya, Damar project, Al Medan, Jaramana, Danon and others, each according to his ability, others lived in mosques and shelters for their inability to hire or to return or stay in their camps, as some have chosen to resort to outside Syria, as about 170 thousands have been distributed to the countries of the world from east to west and from north to south.*

*Amongst those states and countries that Palestinian refugee was a heavy guest Lebanon was fed by 53077 Palestinian refugees came from the same place and for the same reason that prompted nearly ( 1.085 ) million for Syrian refugees, registered with the UNHCR to get out and escape from the hell of the deepening crisis in Syria.*

*Syrian refugees were not entail anything physically or administratively, but the renewal of his residence every six months, to be either transcend the borders for a few seconds or to pay a specified amount of money for renewal without any obstacles. The Palestinian is a visitor where he must get the approval of immigration and passports in Syria first and then pay a fee visa to enter Lebanon with the restriction period allowed for a week, extendable for another week.*

*It is noteworthy that Lebanon had allowed to renew the residence of the Palestinian refugees from Syria because of the crisis, automatically for a year, month and as long as they pay fees of residence if he exceeded one year or if he decided to leave before the end of the year, but the decisions of the Ministry of Interior issued on 9th of May 2014 halted work in this generalization.*

*discrimination among the Syrian refugees in Lebanon, in addition to decisions related to Palestinian Syrian, formed a new factor of risk that is sweeping the Palestinian community of Syria. A Palestinian in Syria has managed to choose a way of several ways, when he was surrounded by danger, managed to escape his family to save what can be saved, but the recent Lebanese decisions confiscated his only option to stay as a refugee in Lebanon until the end of the Syrian crisis, but it imposed a new option, is to return from where he came sooner or later, regardless the Influence of what is going on out there on his life. Is there any adjuster for a refugee or anyone to cry for him???*
